Delhi, India

SUMMARY

Experienced Drupal Developer with 1.5+ years in custom module development and contributing to 3+ projects, including government and educational platforms. Working in a team of 5 members, enhancing, and building processes through automation and improving business performance through data-driven solutions. Seeking to apply technical expertise and leadership in a dynamic team to deliver impactful web solutions.

PROFESSIONAL EXPERIENCE

Drupal Developer | Ballistic Learning

Dec 2023 - Present

- In-house Management Project
 - Role: Developer
 - Responsibilities: Responsible for all aspects of development, including new features, custom module development, API integration, enhancements, debugging issues, working with Twig, upgrading and migrating the site, deploying code, and occasionally assisting with testing alongside the QA team.
- Government Project
 - Role: Project Manager
 - Responsibilities: Planned the entire feature list, conducted extensive research and prepared the effort estimation sheet by breaking tasks into stories. Collaborated with the designer team and the Business Development (BD) team to align project goals, oversaw project execution, and was responsible for hiring new talents for the project.
- Moodle Project (Japan-based University)
 - Role: Shadow Manager
 - Responsibilities: Assisting the project manager, ensuring team coordination, and overseeing project milestones.
- Drupal Trainer
 - Role: Trainer
 - Responsibilities: Training new joiners in the Drupal domain, providing guidance on best practices, and ensuring a smooth onboarding into the project.
